<b>Office Action Summary</b>	Application No. 10/603,405	Applicant(s) ORIAKHI ET AL. 	
	Examiner Paul Marcantoni	Art Unit 1755	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 6/24/03 filing date.
- 2a) ☐ This action is **FINAL**.                      2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1--11, drawn to a method of making a 3-dimensional object, classified in class 427, subclass 427+.
- II. Claims 34-41, drawn to a layered article (not a composition), classified in class 428, subclass 300+.

Note: Claims 12-33 are withdrawn from the restriction because they are improper claims and do not fall under any of the statutory classes of invention of 35 USC 101. It appears they would be grouped with Group II yet this is uncertain. Nevertheless, a *system* is not proper because it is non-statutory and had a rejection been made, would have been rejected under 35 USC 101 and 35 USC 112 second paragraph. Claims to a "system" is not an apparatus (ie machine), an article, composition, or process. It is respectfully requested that applicants delete these claims in their next response to the restriction.

Also, with respect to Group II, applicants claim a *composition* yet a composition does not have structure. The applicants are essentially claiming a layered article. A composition cannot have layers either but an article can. Correction is respectfully requested.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the layered article can be made differently. The liquid vehicle can be applied by brushing, immersion, spraying, ink-jetting, etc. The three dimensional article can be made by making molded forms of the number of layers desired and prior to setting the layers can be stacked simultaneously to form the layered article.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Bradley Haymond on 8/18/04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul Marcantoni whose telephone number is 571-272-1373. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Bell can be reached on 571-272-1362.
